

# Sorting Center: SHAPES

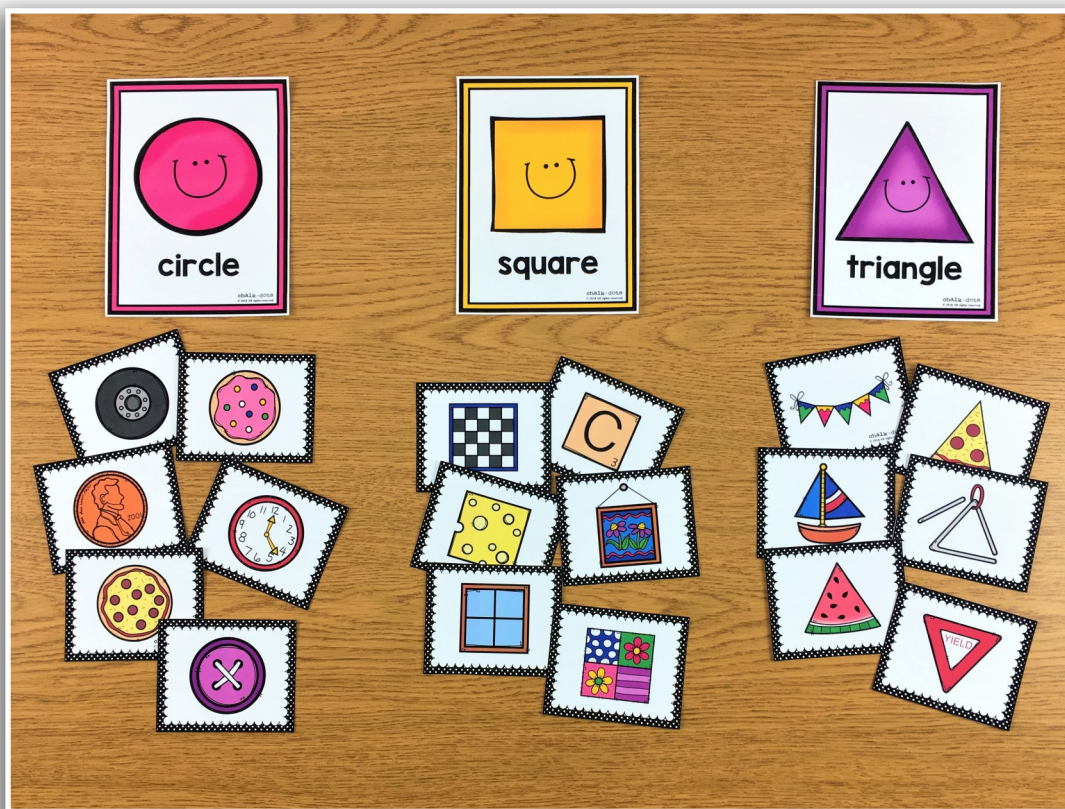

# SORTING CENTER: SHAPES

This hands-on activity is a fun way to help your children recognize and sort shapes. Print out the shape headings and shape cards on white cardstock. I like to laminate them before I cut them out so they are more durable and can be used year after year.

These cards can be used in many different settings. I like to use the cards during my morning "Circle Time." You can either attach the shape headings to your board or put them on the floor in the middle of your circle. You can use as many headings and cards as you want depending on how much time you have and also on your children's abilities. Mix up the shape cards and pass them out to the children. Have the children take turns placing their shape cards next to the correct shape heading.

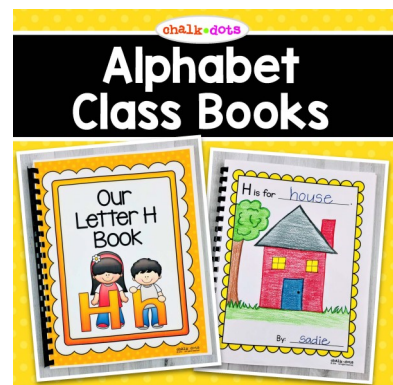

These cards can also be used for small group instruction with any children who need extra practice with their shapes. They can also be put in a center for the children to work on individually.

I hope you and your students enjoy this resource!

## PreK/Kindergarten Resources

# TERMS OF USE

Thank you so much for your purchase! I hope you enjoy this resource!

Please remember to leave feedback to earn TPT credits which can be used toward future purchases.

## YOU MAY

- Use this item for personal or student use in a single classroom.
- Purchase an additional license at a large discount for others to use or direct them to my TPT store so they can purchase their own copy.
- Enjoy this resource with your students! Make sure to check back for updated versions.

## YOU MAY NOT

- Copy and give this item to your friends or colleagues.
- Reproduce, redistribute, or post this item on a blog or website for download. This includes personal websites, district websites, file sharing sites, etc.
- Post this item or any like copy for sale or for free.
